Look back on 2022 data

# 2023 APM Measurement Timeline

# LAN APM Goal Statement

## GOAL STATEMENT

Accelerate the percentage of U.S. health care payments tied to quality and value in each market segment through the adoption of two-sided risk alternative payment models (Categories 3B-4).

	Medicaid	Commercial	Medicare Advantage	Traditional Medicare
2024	25%	25%	55%	50%
2025	30%	30%	65%	60%
2030	50%	50%	100%	100%

# Results from 2023 Measurement Effort: APM Progress

## Percent of APM Payments in Categories 3B-4 by LOB

2022 Data Year

# Results from 2023 Measurement Effort: Health Equity

## Health Equity

### Top 5 Health Equity Strategies to Incentivize Providers in Value-Based Care Arrangements

Collection of standardized race, ethnicity, and language data

Participation in quality improvement collaboratives

Reporting performance measures by race, ethnicity, and language

Measurement of clinical outcome inequities among member groups

Collection of sexual orientation, gender, and identity data

### Top 5 Social Determinants of Health Strategies to Improve Health Equity and Outcomes

Screening for socioeconomic barriers known to impact health or health outcomes

Referrals to community-based organizations to address socioeconomic barriers

Multidisciplinary team models (e.g., social worker, community health worker, medical staff, doula, etc.)

Care coordination for services that address socioeconomic barriers

Safe transportation (e.g., incentives or partnerships in ride sharing programs)

# Measuring Lives in Accountable Care Arrangements

## LAN's Accountable Care Definition:

*“Accountable Care centers on the patient and aligns their care team to support shared decision-making and help realize the best achievable health outcomes for all through comprehensive, high quality, affordable, equitable, longitudinal care.”*

**Lives in accountable care arrangements must include two elements:**

The care is **longitudinal with a duration of at least 6 months** or longer; and

The payment model incorporates **accountability for total cost of care (TCOC)** for attributed patients

# Results from 2023 Measurement Effort: Lives in Accountable Care Arrangements

## Percent of Lives in Accountable Care Arrangements by LOB

2022 Data Year

In 2022, 36.1% of the lives represented by data contributors were covered in accountable care arrangements, across all LOBs.

 = 5 Million Lives

### All LOBs

93.1M Lives

84.9% of the market represented in the survey

36.1%

### Traditional Medicare

13.7M Lives

100% of the eligible\* market represented in the survey

46.6%

\*Partial benefit members were not included in the covered lives analysis.

# Panel Discussion
