

*Accountable Care: From Planning to Action*

# LAN SUMMIT

Health Care Payment Learning & Action Network

## From Planning to Action:

Operationalizing Accountable Care at All Levels

# Individual Remarks

## **Dr. Mark McClellan**

Director

Duke-Margolis Center for Health Policy

Co-Chair

LAN Executive Forum

# Goals of the LAN

**Increased adoption** of effective accountable care arrangements and individuals attributed to accountable care relationships.

Development of **equitable models**, including scaling of payment structures and design elements that promote care models that advance equitable outcomes.

Promote **multi stakeholder alignment** of shared APM design elements across purchasers, payers, providers, and patients.

## How the LAN Defines Accountable Care

Accountable Care **centers on the patient**, and aligns their care team to support **shared decision-making** to help realize the best achievable health outcomes for all through equitable, comprehensive, high quality, affordable, longitudinal care.

# Goal-Oriented Action

A HEALTH SYSTEM THAT ACHIEVES EQUITABLE OUTCOMES THROUGH HIGH QUALITY, AFFORDABLE, PERSON-CENTERED CARE

DRIVE ACCOUNTABLE CARE

ADVANCE HEALTH EQUITY

SUPPORT INNOVATION

ADDRESS AFFORDABILITY

PARTNER TO ACHIEVE SYSTEM TRANSFORMATION

The LAN and CMS have shared goals for **100% of Medicare beneficiaries** the **vast majority of Medicaid beneficiaries**, and **most Americans with private insurance** to have access to ***accountable care relationships by 2030.***

# Progress Toward LAN Accountable Care Goals

Coming out of the Public Health Emergency (PHE), APM adoption increased for two-sided risk models in 2022:

- 5 percentage point average **increase in models with “downside risk”** (significant shift away from fee-for-service), compared to a less than 2 percentage point average increase reported in the previous year.
- The most recent APM Measurement Effort survey collected by the LAN now **includes data on the share of people in accountable care relationships.**

Full measurement progress will be provided during this afternoon’s session:

***Reflecting on Action: 2023 APM Measurement Effort: Advancement in APM Adoptions and the Impact on Covered Lives***

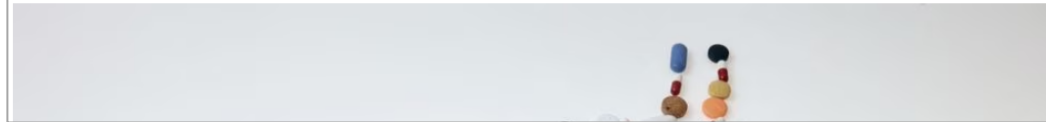

# Accountable care is needed to address health care system challenges

## US employers to see biggest healthcare cost jump in a decade in 2024

# LAN Efforts to Advance APM Adoption and Address System Challenges

## Shared Learning

to accelerate action and adoption of best practices for person-focused care, greater affordability

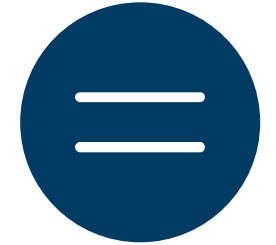

## Aligning Reforms

across payers to increase leverage and reduce administrative burden

## Promoting Integration

of primary and specialty care

## Advancing Equity

in accountable care models

# Shared Learning to Accelerate Action

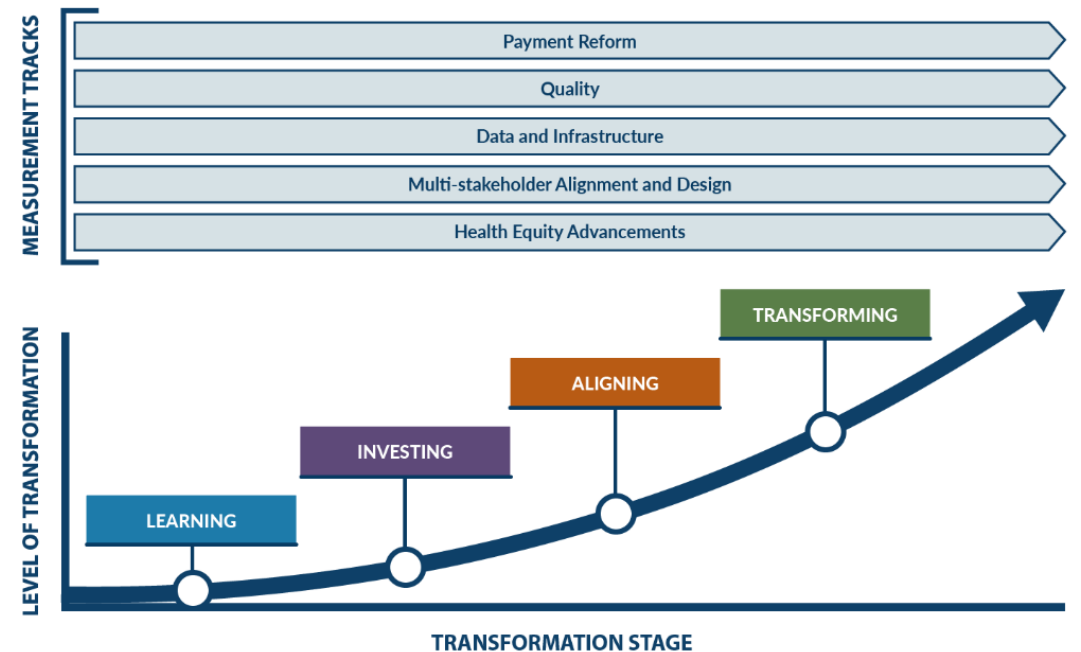

The LAN launched the **Accountable Care Action Collaborative**, a broad coalition of industry and consumer groups meant to **catalyze accountable care reform** initiatives and **scale best practices**

## LAN efforts to promote shared learning to accelerate action:

- Launched the Accountable Care Curve, which serves as a learning tool for organizations across the healthcare landscape looking to invest in their journey towards accountable care
  - An interactive resource to support wide range of organizations to take further steps in accountable care

## Accountable Care Curve

# Multi-payer alignment to advance accountable care standards

LAN State Transformation Collaboratives support multi-stakeholder collaboration at the state level, providing support for convening, subject matter advisors, and resources in key areas of multi-payer alignment.

## Other LAN efforts to promote alignment:

- Convening the National Health Plan Work Group
- Publication of the Multi-Payer Alignment Blueprint
- Enabling LAN mechanisms for engagement on CMS alignment initiatives (e.g., CMS Universal Foundation for Quality Measures; CMS/ONC MSSP eCQM standards)

# Alignment through primary and specialty care integration in accountable care

Success in accountable care requires **expanding effective payment reforms and supports to engage different types of specialty care.**

To catalyze progress, the LAN has expanded its membership and is focusing on promoting primary-specialty care coordination in its work on best practices and multi-payer alignment.

## **Other LAN initiatives on primary and specialty care integration:**

- LAN report on Aligning Clinical Episode Payment Models
- State Transformation Collaborative stakeholder engagement in the Making Care Primary Model, which promotes advanced primary care and specialty integration
- National Health Plan Workgroup focusing on promising practices for specialty care integration into accountable care

# Addressing diverse population health needs and increasing equity

Ensuring the needs of all beneficiaries are addressed to curb health disparities and achieve the LAN 2030 goals

## Other LAN efforts to address diverse population health needs:

- Health Equity Advisory Team guidance on partnerships between health care organizations and community-based organizations to address health-related social needs through accountable care
- Person Perspectives Council to help assure patient centricity in accountable care models
